Special Word from Faye to Intercessors with Insight

The plague is stayed! The "cure" has been found. It is Time for a Release! 2 Samuel 24:25

"And David built there an altar unto the LORD, and offered burnt offerings and peace offerings. So the LORD was in-treated for the land, and the plague was stayed from Israel."

God revealed to us months ago the facts about this spirit of death poured out on this nation and the world was intentional. We prayed weekly for the truth to prevail and the agenda to be aborted that the plague was sent to accomplish. We prayed for lies to be bound and those profiting from the China virus to be exposed. Our nation was being controlled by liberal democrat scientist....supposedly experts. These experts were shaking down our nation with getting billions of tax dollars.

The Lord revealed to us it was not the virus killing so many people.....it was the treatment or lack thereof. He showed us the lockdown of our nation was a political move to use as an excuse to impoverish our nation and blame President Trump....It was a plan to overthrow our government! We knew exactly how to pray. Rebuke the devil and he will flee from you! It is now confirmed, we were right....We asked God to stay this plague before Nov 3rd. It took President Trump going into the lion's den to find the cure. Our prayers heard and answered..... Praise the Lord!

The claim: *An image depicts Barack Obama, Melinda Gates and Anthony Fauci at a Wuhan lab in 2015*

The photo is taken out of context

The original image pops up in a 2014 blog post made by Dr. Francis Collins, director of the National Institutes of Health. The photo was taken when then-President Obama visited NIH – in Maryland, not Wuhan.

Jul 17, 2020 — Social media users have been sharing a photograph with text that claims it shows former President Barack Obama, Dr. Anthony Fauci and ... The Obama administration provided a \$3.7 million grant to the Wuhan Institute of Virology in China

What's True

A portion of \$3.7 million in grants awarded between 2014 and 2019 by the National Institutes of Health (NIH) to EcoHealth Alliance, a global environmental health nonprofit organization, helped fund research at

the Wuhan Institute of Virology in China. What's False However, not all of that \$3.7 million went to the Wuhan Institute of Virology, and not all of the funding took place under the Obama administration 2020 ELECTIONS

AM EDT At the same time that Joe Biden's son-in-law, Howard Krein, has been advising Biden's campaign on its coronavirus response, Krein's venture capital business has been running a special initiative to invest in health care startups that offer solutions to the pandemic.

In March, as Covid-19 began spreading in the United States, the investment

firm, StartUp Health, unveiled a new coronavirus initiative soliciting pitches from entrepreneurs with products that addressed the outbreak.

The next month, reports in Bloomberg and the New York Times listed Krein among those participating in daily calls to brief Biden on health policy during the pandemic, while StartUp Health announced its intention to invest \$1 million across 10 startups with coronavirus applications within 30 days. “StartUp Health is putting the full support of its platform and network behind building a post-Covid world that uses technology and entrepreneurial ingenuity to improve health outcomes,” the firm said at the time.

Krein simultaneously advising the campaign and venturing into Covid investing could pose conflict-of-interest concerns for a Biden administration or simply create the awkward appearance of Krein profiting off his father-in-law’s policies. Since the start of the coronavirus outbreak, the federal government has directed tens of billions of dollars in coronavirus medical spending in areas like testing and vaccine research to private firms. It is poised to spend billions more next year and possibly beyond.

The potential conflicts are not limited to the coronavirus for Krein, 53, a Philadelphia-based head-and-neck surgeon who got into venture investing not long after he began dating Biden’s daughter, Ashley, in 2010. Since StartUp Health’s 2011 launch, when Krein

came on as its chief medical officer, it has invested in more than 300 health care businesses, according to its website, which prominently features the term “moonshot” to describe its investment goals — language that echoes that of Joe Biden’s own signature Cancer Moonshot initiative. In its early years, the firm enjoyed close ties to the Obama administration and described Krein as a White House adviser.

‘Global catastrophe’: WHO envoy urges end to coronavirus pandemic lockdowns
Nabarro’s message comes with lockdowns under fire by scientists,
A leading World Health Organization official has urged governments to stop using lockdowns as their primary method of fighting the novel coronavirus pandemic, citing the devastating economic and public-health consequences.

Dr. David Nabarro, the organization's special envoy for COVID-19, said in a Friday interview on British television that "we in the World Health Organization do not advocate lockdowns as the primary means of control of this virus."

He said the lockdowns may result in a doubling of world poverty and "at least a doubling of child malnutrition because children are not getting meals at school, and their parents in poor families are not able to "This is a terrible, ghastly global catastrophe, actually, and so we really do appeal to all world leaders: Stop using lockdown as your primary control method," Dr. Nabarro told [U.K.] Spectator TV's Andrew Neil. "Develop better systems for doing it. Work together and learn from each other, but remember, lockdowns just have one consequence that you must never ever belittle, and that is making poor people an awful lot poorer."
